PROFILE SUMMARY

Pursuing Third year B.Sc. Information Technology Graduate from Nagindas Khandwala College with a strong foundation in programming, web development, and databases. I enjoy solving problems, building user-friendly interfaces, and continuously learning about new technologies.

My academic journey has helped me develop skills in HTML, CSS, JavaScript, PHP, SQL, and more. I'm currently enhancing my technical knowledge through self-study and hands-on practice, aiming to begin a career in software development, web technologies, or IT services.

EDUCATION QUALIFICATION

Course	Stream	Institute	Board/University	Year of Passing
B.S.C	Information Technology	Nagindas Khandwala College	University of Mumbai	2026
H.S.C	Commerce	P..D. Turakhia Jr. College of Commerce & Science	Maharashtra State Board	2023
S.S.C	-	Holy Mother's English School	Maharashtra State Board	2021

TECHNICAL SKILLS

- Front-End Web Development: HTML, CSS, JavaScript, jQuery, Php
 - Database Management: MySQL
 - Programming Languages: Java, C, C++, Python, C#.
-

ACADEMIC PROJECTS

1. Responsive Image Gallery

This project is a responsive image gallery that adjusts seamlessly to various screen sizes, including mobile. It uses HTML and CSS to display a centered image with fluid scaling and rounded borders. The layout ensures that the image remains centered both vertically and horizontally regardless of the device's dimensions.

Skills Used: HTML, CSS, JavaScript

2. Steganography Application

I Had Developed a desktop application using Python for securely hiding and revealing text messages within images using LSB (Least Significant Bit) steganography technique.

Skills Used: Python, Tkinter, Pillow, Stegano, GUI Development.

- user-friendly GUI built with Tkinter for seamless interaction.
- Image selection, message hiding, and message revealing functionalities.
- Utilized the Pillow library for image processing and the Stegano library for steganography.
- Ensures confidentiality by embedding secret messages in PNG/JPG files without noticeable changes.

From this project I had Enhanced understanding of cryptographic techniques and GUI design, while improving image processing capabilities.

3. Daily Routine – To-Do List App

To-Do list mobile application using Flutter. The app allows users to add, update, mark as complete, and delete daily tasks with real-time UI updates using StatefulWidget.

Implemented dialogs for task editing, state management using setState(), and used Material Design components for a native mobile feel.

Key Features:

- Add, edit, and delete tasks
- Mark tasks as completed

- Dialog-based task update
- Responsive layout for mobile devices
- Clean and minimal UI with real-time state changes

Skills Used: Flutter, Dart

CERTIFICATIONS

- Diploma In Computer Programming.
 - Introduction to Flutter For Beginner – Simplilearn.
 - Participation – Hackathon Organized by Snehal Yuvak Mandal, 14th July 2024.
-

Extra-Curricular Activities

- Cryptic Hunt(intercollege Event)
Kishinchand Chellaram College Secured Third Position in a Treasure/Cryptic Hunt of Systematic Chaos 2024.
-

PERSONAL DETAILS

- DOB: 29/04/2006
- Languages Known: English, Hindi, Marathi
- Address: Malad, Mumbai, Maharashtra
